OBJECTIVE

Aspiring AI SOC Analyst seeking to apply Security Operations, SIEM, and threat-detection skills in a real-world environment, with a focus on combining AI to build faster, smarter security operations.

EDUCATION

B.C.A. — Cyber/Computer Forensics & Counterterrorism
Indira Gandhi National Open University
2025 – 2028

Business/Commerce (Class XII)
Kamal Model Sr. Secondary School
2024

TECHNICAL SKILLS

SIEM Tools
Splunk · Microsoft Sentinel · ELK Stack · Wazuh

Security Operations
SOC · Incident Response · Threat Hunting · SOAR

Frameworks & Languages
MITRE ATT&CK · Python · SQL

Platforms
Linux · Windows Security

CERTIFICATIONS

- **Certified Ethical Hacker (CEH)** — Cisco
- **Cyber Security Analyst Job Simulator** — Forage
- **Deloitte Australia – Cyber Security Masterclass** — Forage / Deloitte Australia
- **Introduction to Cyber Security** — Cisco Networking Academy

SOFT SKILLS

- Analytical & Critical Thinking
- Continuous Learner
- Problem Solving
- Team Collaboration

PROFESSIONAL SUMMARY

Aspiring AI SOC Analyst with a strong foundation in Security Operations (SOC), SIEM, incident response, and threat detection, driven by a passion for combining artificial intelligence with cybersecurity. Hands-on exposure to Splunk, ELK Stack, Wazuh, Microsoft Sentinel, Linux, and Windows environments through log analysis, security monitoring, alert investigation, and incident handling. Continuously sharpening blue-team, detection-engineering, and security-automation skills through TryHackMe and practical projects.

INTERNSHIP EXPERIENCE

Cyber Security Intern | Cisco
September 2026 – October 2026

Gaining hands-on exposure to enterprise security monitoring and SOC workflows.
Supporting log analysis and alert investigation using industry-standard tools.

Cyber Security Intern | Centri
September 2026 – October 2026

Assisting with security incident response and threat-monitoring tasks.

Cyber Security Analyst | Infotact Solutions
May 2026 – June 2026

Performing threat detection, log analysis, and incident-handling activities.
Applying SIEM concepts to identify and triage suspicious activity.

Cyber Security Analyst | TechnoHacks EduTech Official
March 2026 – April 2026

Completed an internship in Cybersecurity & Digital Forensics.
Worked on practical security analysis and forensic investigation tasks.

ADDITIONAL EXPERIENCE

Artificial Intelligence Intern | CodSoft
April 2026 – May 2026

Working on AI/ML-focused projects, applying automation to real-world problems.

Frontend Developer Intern | CodSoft
August 2026 – September 2026

Building and styling responsive front-end interfaces.

Campus Ambassador | Quillance
July 2026 – August 2026

Representing Quillance on campus and driving student engagement initiatives.

SECURITY PRACTICE & PROJECTS

TryHackMe — Self-Directed Practice
May 2026 – June 2026

Practicing blue-team operations, threat hunting, and SIEM implementation through guided labs.
Building detection-engineering and security-automation skills via hands-on rooms and challenges.

AREAS OF INTEREST

AI Security	SOC Operations	SIEM & SOAR
Threat Detection & Hunting	Detection Engineering	Security Automation
